DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 14, 2008 has been entered.
2. This Office action is in response to the amendment filed August 14, 2008 in which claims 1, 8, 14-17, 19 and 31 were amended.
3. The rejection of the claims under 35 U.S.C. 103(a) is withdrawn in view of the amendment to the claims.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 14-17, 19, 31 and their dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is closed with respect to what makes up the fuel oil cold flow additive. The rejected claims (14-17) broaden the claims by use of the term "contains". It is suggested that Applicant amend the claim language to read – further consisting of --.

Claims 19 and 31 are closed with respect to the components that may be present in the fuel oil. By use of the language “containing”, applicant has opened the claims to other unrecited materials.

6. Claims 1-4 and 6-12 are allowable because the prior art fails to teach the fuel oil consisting of a mineral oil middle distillate, a cold flow improver and further consisting of the optional components.
